

## Bradley Janse van Rensburg Solution Design Manager

Bradley Janse van Rensburg joined ContinuitySA in 2000 as a Junior Technician, after matriculating at King Edward VII High School and has been involved in Business Continuity ever since.

Bradley has completed a number of courses relating to Business Continuity, Microsoft Certification, Computer Assisted Design, Project Management, Business Presentation and general management. He has also been involved in and responsible for various strategic initiatives with ContinuitySA including the establishment of an Asset Management Division.

Currently, Bradley is the Manager of the Solutions Design Department at ContinuitySA and his primary role is to assist with several Pre-Sales, Solutions Design and Implementation activities.

In addition to his normal duties as Manager, Bradley has also been elected as the Chairman of the BEE committee and a member of the ContinuitySA Executive Committee (Exco) and has been instrumental in the 2008 and 2009 BEE assessment and rating projects.
